## Intelligent Wall Mount Sounder Strobe

### > Product Overview

KAC's wall mount sounder strobe is a high quality loop powered device designed to alert building occupants of an emergency. It utilises the System Sensor B501AP base for improved installation flexibility. When triggered by the fire panel its powerful sounder and intense strobe give a visible and audible warning. A choice of output levels and tones make the device suitable for a wide variety of applications.

## Technical Overview

The KAC Wall Mount sounder strobe integrates a 32 tone sounder and high quality strobe into one device. It is powered by the fire panel via the loop wiring. Control of the device is enabled using on-board switches, some of which can also be adjusted through SS Advanced Protocol. The device is installed simply by a twist fit onto the B501AP base.
